

Certificate of Compliance

Piezoceramic Products

Smart Material GmbH certifies that our piezoceramic products meet or exceed the applicable product specifications, including any specified drawings and documents, and have been manufactured in accordance with applicable quality requirements.

The products comply with the currently applicable regulations of the European Union and the laws of the Federal Republic of Germany in terms of its manufacture and distribution, in particular the relevant Directive 92/53, Annex IX, of the European Union. The products contain PZT – lead zirconate titanate (Pb(ZrTi)) as its main component, with lead (Pb) in quantities > 0.1 % to ensure the required piezoelectric properties of the product. According to Directive 1907/2006EC (REACH), lead-containing PZT is classified as a „substance of very high concern“ (SVHC) for which restrictions have been formulated (RoHS).

Directive 2011/65/EU of June 8, 2011 (RoHS 2), in particular Annex III, and Directive 2015/8763/EU of March 31, 2015 (RoHS 3) apply. According to Annex III, Numbers 7c, and Annex IV (RoHS 2), piezoelectric composite materials and monitoring and control instruments, are exempt from the restrictions, where applicable.

Our products are subject to continuous quality control in accordance with

DIN EN ISO 9001:2015.

SMART Material GmbH is certified according to this standard and registered under number 12 100 69699 TMS.
